

Business SMS

Boost Your Outbound Communications

Cut Through the Noise with Business SMS

SMS messaging is a way to communicate with your customers and leads beyond traditional methods such as email, phone calls and print. It utilises mobile technology to send SMS messages directly to your customer's phone via a virtual number.

A Communication Channel That Really Works

SMS messages have an open rate of 94%, making it one of the most effective methods for client communication. Adding SMS Messaging to your marketing or general communication process will help boost your open rates, increase your client responses and increase overall performance of your business.

Get Better Contact Response Rates

Get better response rates from your contacts by sending SMS messages directly to their mobile. With a 94% open rate, SMS marketing is a channel that's proven to work.

An Easier Way for Clients to Get in Touch

Make it even easier for your clients to get in touch. 2-way messaging enables you to both send and receive messages for easy conversations.

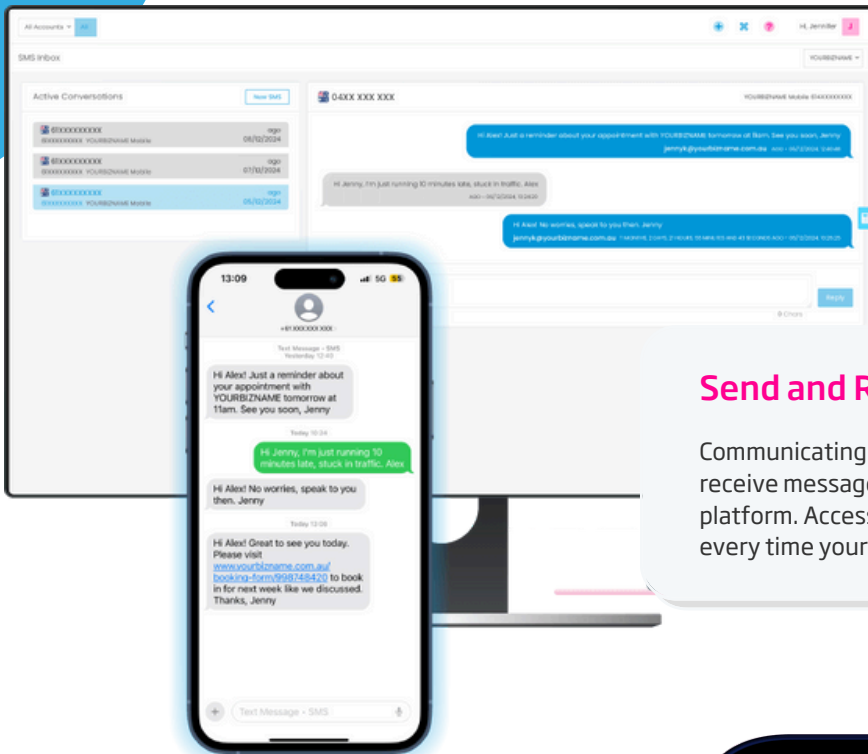

Low Cost Plans and No Lock-In Contracts

Our low cost SMS packages are designed to help you enrich your marketing campaigns without incurring heavy expenses. And of course, all plans have no lock-in contracts.
